

Material Safety Data Sheet

Date Issued: March 2018

Trade name covered by this MSDS: **Eurovent Fassade**

Composition: Polyester spunbond with coating (PET).

Breathable waterproof, underroof foil of PET nonwoven fabric having a functional layer (+ any additional reinforcing layers of PET). For use in building construction.

Ingredients and hazards identification:

The product is a polyester spunbond with coating (PET).

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

Effects and Symptoms:

Eyes: no significant irritation expected other than mechanical. Skin: no significant irritation expected other than mechanical.

First Aid Measures:

SKIN: No emergency care in normal conditions EYES: No emergency care in normal conditions INHALATION: No emergency care in normal conditions INGESTION: In the case of an ongoing complaint consult a doctor

Handling and Storage:

Handling: No special measures required. Handle in accordance with good industrial hygiene and safety practice.

Storage rooms and containers: no special measurements necessary Keep away from sunshine. Keep away from sources of ignition – do not smoke. Storage period : 12 months

Stability and reactivity:

No thermal decomposition if used as advised.

No dangerous reactions known. Main decomposition products: Nitrogen Oxide, Carbon Monoxide, Carbon

Dioxide, water. Stable under normal conditions.

Physical and Chemical Properties:

Physical state - Appearance -

Boiling point - Self – inflammable - Danger of explosion - Solubility -

Solid Various colours, according to pigments used. Odourless. Not determined. The product is not self-inflammable. The product is not in danger of explosion Insoluble in water and generally chemically inert.

The data in this section are typical values for

Additional information : this product and are not intended as product specifications.

Fire-fighting Measures:

Co-ordinate fire – extinguishing measures with the surroundings.

- . a) Suitable Extinguishing Media – water, foam, carbon dioxide or dry powder, sand
- . b) Products of combustion – Nitrogen Oxide, Carbon Monoxide, Carbon Dioxide, water vapour

Wear suitable breathing apparatus in the event of fire.

Ecological Information:

In general not dangerous to water, do not disperse in environment. This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

Toxicological Information:

No skin irritation effects known. No possibility of eye irritation. No sensitising effect known.

With proper handling and agreed use the product has no effects which are harmful to the health in our experience and in accordance with the information available to us.

Disposal Considerations:

No special precautions.

Transport Information:

In accordance with ADR / RID / IMDG / IATA / ADN:

Not classified for transport

Regulatory Information:

The product does not need to be labelled in accordance with Regulation (EC) No. 1272/2008 [CLP].

Contains no substances with Annex XVII restrictions. Product is not on the REACH Candidate List. Contains no substance on the REACH candidate list Contains no REACH Annex XIV substances.

Chemical Safety Assessment: Not applicable.

Additional Information:

The information contained with this data sheet applies only when the product is used for the stated application and according to the guidelines for use. Use in other applications and associated risks are not covered by this safety information. The details in this Safety data sheet are based on our current level of knowledge. However they do not constitute an assurance of the product properties and do not substantiate any contractual legal terms or conditions.

Contained information, advice and guidance is given based on our knowledge, researches, experiments and in good faith. We are not responsible for the consequences of improper or incorrect use of our products. Each user of this material will ensure in every possible way, including an examination of the final product in the relevant conditions, the suitability of supplied materials to achieve the objectives pursued by him.
